METU Computer Engineering Dept.
CENG 599 – Term Project
Spring 2017

Instructor:
Prof. Dr. Ahmet Coşar, A-208,
Email: cosar@metu.edu.tr,
http://www.ceng.metu.edu.tr/~cosar

Class Time and Place:
Friday, 18:15, A-101

Website:
https://odtuclass.metu.edu.tr

Course Objectives:
Choosing a term project topic by studying popular research topics for CENG non-thesis masters program. Following and supervising progress of students in their term project topics. First, a proposal is written specifying the project work. Then, progress of students in design and implementation of the project topic is achieved by timely submission of required progress reports over the semester. The course is concluded with the presentation of term project work by the participation of term project supervisor and the course instructor.

Requirements / Deliverables:
- Attendance and Participation
- Project Proposal
- Progress Reports (each month)
- Final Report
- Presentation and Demo
